

12 June 2020

Dear Homeowner

As we approach the shortest day of the year and with a cold front upon us and more icy weather on its way, I'm reminded how difficult seasons in life are often compared to winter and the challenges it brings. In our day to day lives a lot of us are currently going through a winter season be it with health, finances, work, social or family related matters. What we can take hope from is that **this season too shall pass** and if we keep moving, we will come out stronger. Let us try and focus on the beauty this season brings.

## Golf

We are elated to announce that our Golf Course will be open as of tomorrow morning (Saturday 13 June). We encourage all golfers to brave the cold and come and support the club. There is various safety measure that need to be adhered to which will be communicated on the various golf groups and displayed at the Pro Shop.

Please make you booking through the website [www.parysestate.co.za/](http://www.parysestate.co.za/) [www.golftimesa.co.za](http://www.golftimesa.co.za) or by contacting the Pro Shop 056 818 1567 [proshop@parysestate.co.za](mailto:proshop@parysestate.co.za)

## Security News

The registration of domestics and gardeners have gone well, and we want to thank you all for your co-operation re this matter. Just for clarity as of Monday 15/06 no ID no entry.

We were informed of a security breach by a homeowner and the security manager apprehended 6 young men busy chopping wood on

## Refuse Removal

We are glad to announce that as of this coming Tuesday 16 June Oom Nols will be collecting garden refuse on a weekly basis as well.

We have unfortunately noted that some residents abuse the system by dumping anything from steel parts, wooden planks and poles, cut down and trimmed trees, machines etc. Going forward this will not be collected as part of the service. As far as the garden refuse is concerned anything that can fit into a bag will be collected. Oom Nols can be contacted privately and will appreciate the support to collect other refuse that don't qualify for collection on the normal days.

Oom Nols can be contacted on 078 094 7119 for this service at a fee.

**COVID-OPENING SPECIAL**  
**SATURDAY 13 JUNE**  
**TO**

an island next to the 7th green. They were taken to the police station where they were charged with trespassing.

### **Household refuse collection:**

**Mondays from 08:30**

**Thursdays from 08:30**

### **Garden refuse collection:**

**Tuesdays from 08:30**

## **Covid-19 Compliance**

As an estate we have taken the necessary steps to ensure all measures are in place as per regulations, our staff are screened and have the necessary protection. There has been some uncertainty re this matter but please note that each homeowner/employer are responsible for their own employees and need to take the necessary steps to ensure that they are compliant.

The estate does not take responsibility for screening workers at the gate.

We also want to remind all residents to ensure their staff and all family members comply with the measures that have been imposed by government.

## **Suggestions and Complaints**

We encourage all suggestions and take note of all complaints however if these are not done through the right channels it creates animosity amongst homeowners especially those that feel that the suggestion or complaint is not relevant. Everyone has my and the offices contact details so please send this to us directly where in most cases it can quickly be dealt with. The WhatsApp groups that have been created by homeowners are not the platform for this as it is not an official estate group so don't expect management to respond to messages on these groups. Please contact us through the correct channels.

## Electricity - Load Rotation

Most residents would have seen that Ngwathe has implemented a Load Rotation of electricity due to the demand being more than the allocation given to Ngwathe by Eskom. The estate has been fortunate up to now due to us being on the same line as the waterworks however when the demand is extremely high this area will also share in the load rotation as was the case today. Schedules are available but unfortunately not very reliable at the moment and changes as the demand fluctuates.
