

5 August 2021

Dear Homeowner

Privatization forms an integral part of our long-term strategy to strengthen our estate financially and to grow the value of our properties.

This this end, the development of the hospital and all the subsequent spin – off, is an example thereof.

Further initiatives by homeowners and golfclub members inter-alia includes the Driving Range and development of an on-site gym.

Please note the Boards willingness to entertain any initiatives with regards to privatizing entities which will contribute to the growth of this estate which we all so dearly love.

We are trying to streamline our communication to residents, members and patrons. The Telegram app allows for better communication between the admin-office and the various stakeholders. It is similar to WhatsApp but the functionality allows for more comprehensive documents to be shared to bigger groups at the same time. Please download the app on your phone. This will replace the normal bulk SMS-system and the WhatsApp communication that is currently used.

We will keep you informed on future growth initiatives.

Kind Regards
HOA Management
